

Profox Companies Named Authorised Reseller in Sweden for Autodesk Plant Solutions and Navisworks

Stockholm, Sweden, February 1st, 2011 - [Profox Companies Oy](#), a leading and recognised Finnish Autodesk Value-Added Reseller, announced today that it is now authorized in Sweden to sell [Autodesk Plant Solutions](#), including Autodesk Plant Design Suite, an integrated plant design and whole-project review solution. Profox Companies will also become an Autodesk Manufacturing Partner in Sweden with offices based in Taby, Stockholm.

Autodesk Plant Design Suite helps plant designers improve communication, accuracy, and predictability of plant design projects by combining AutoCAD, AutoCAD P&ID, AutoCAD Plant 3D, and Autodesk Navisworks software into a single economical package for faster time-to-productivity and better project coordination. Integrated AutoCAD functionality enables more streamlined 2D drafting, P&ID design, 3D modelling, and construction document generation. Autodesk Navisworks capabilities provide project-wide model aggregation and advanced tools for visualization, simulation, and error identification.

"We are very pleased that Autodesk have authorised us to offer their Manufacturing and Plant Solutions products in Sweden" commented John Foster, Director of Profox Companies and responsible for the Swedish business. "This follows our acquisition of Swedish Autodesk VAR, Adsolution's business last year and gives us the full backing of Autodesk and FutureCAD, the Autodesk distributor in Sweden. This is a further step in extending our market presence into Sweden and our ability to provide local support where we already have a number of important customers. We intend to continue to widen the market for our complete range of products and services especially our Autodesk Navisworks based products and laser-scanning solutions".

Profox Companies have recruited Jesper Nee as Sales Manager based in their Stockholm office located in Taby.

Jesper is a qualified engineer and has held previous technical roles with Oracle and Ericsson as well as having previous sales experience with Navisworks in the Autodesk Channel in Sweden.

"We are delighted that Jesper has joined our Swedish business" added John Foster. "We are confident that Jesper's experience and business contacts combined with his technical and sales background will help deliver our growth plans in Sweden"

Swedish Autodesk customers will benefit from Profox's focused Plant Solutions and Navisworks teams in providing experienced consultancy, training and support as well as access to Profox's value added software products and custom development solutions. Existing Swedish customers will also be able to receive uninterrupted local support, maintenance and software upgrades from Profox as part of their existing support and maintenance agreements.

Profox have many years experience providing Autodesk Plant Solutions initially as a NavisWorks partner and more recently as an Autodesk Value Added Reseller, Existing customers include Skanska, NCC, Andritz, Poyry, Metso Power and Foster Wheeler.
